Introduction - Density measurements in fusion plasmas: reflectometry and other measurements

Monday 13 May 2024 09:15 (40 minutes)

A tutorial introducing the place of microwave diagnostics, and reflectometry especially, in plasma physics and controlled magnetic confinement fusion research.

Primary author: SABOT, Roland (The French Alternative Energies and Atomic Energy Commission (CEA))

Presenter: SABOT, Roland (The French Alternative Energies and Atomic Energy Commission (CEA))

Session Classification: Talks

Track Classification: Day 1 - Scientific Contributions: Reflectometry
