

## **O2: Complete the edge and SOL physics basis in the magnetic configuration space of W7-X**

*Tuesday 28 November 2023 11:20 (15 minutes)*

D1: Providing the experimental data base for understanding transport mechanisms in the island divertor SOL and across the LCFS, including flows, drifts, turbulence  
D2: Validation of edge transport codes

**Presenter:** KRIETE, Matt (Auburn University)

**Session Classification:** TF-III
